

Biology with Lab

South Carolina Qualifications:

This class will meet the state requirements for 1 credit in a Biology Laboratory Science

Course Description:

From the Author- Exploring Creation with Biology is designed to provide a detailed introduction to the methods and concepts of general biology and is a college-prep course. Heavily emphasizing the vocabulary of biology, it provides the student with a strong background in the scientific method, the five-kingdom classification scheme, microscopy, biochemistry, cellular biology, molecular and Mendelian genetics, evolution, dissection, and ecosystems. It also provides a complete survey of the five kingdoms in Creation.

During class students will learn key topics from the lessons and perform labs. Weekly assignments will be given setting the pace of the curriculum. Mid-term and Final exams will be administered in class.

Curriculum Materials Needed to purchase:

- Exploring Creation with Biology 2nd Edition by Dr Jay Wiles
- Exploring Creation with Biology 2nd Edition Solutions and Test Manual
- Exploring Creation with Biology 2nd Edition Student Notebook

Fees: Biology with Lab Tuition- \$150.00 per semester

This course is being offered through Pathways for Scholars which is a cooperative of Vine and Branches Home Educators. In order to take this class, families must be support members of VBHE. In addition the registration and building fees for Pathways for Scholars also apply.
